APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 22948 is issued subject to the terms and conditions imposed in said Permit 22948 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a weir or other type of measuring device at or near the well to facilitate the measurement and control of the water. If well is flowing, a valve must be installed and maintained to prevent waste. The State reserves the right regulate the use of the water under this proposed change at any and all times.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.945 cubic feet per second but not to exceed a yearly duty of 433 acre-feet from any and/or all sources.

Actual construction work shall begin on or before. February 26, 1969

Proof of commencement of work shall be filed before. March 26, 1969

Work must be prosecuted with reasonable diligence and be completed on or before. February 26, 1970

Proof of completion of work shall be filed before. March 26, 1970

Application of water to beneficial use shall be made on or before. February 26, 1973

Proof of the application of water to beneficial use shall be filed on or before. March 26, 1973

Map in support of proof of beneficial use shall be filed on or before.

14. Remarks...The well is being relocated because the quality of the water from the original well is unsatisfactory for cooling tower make-up. The Nevada Power Company plans to utilize the water from this well and other existing wells in a steam electric generating station, supplying power to the Las Vegas Area. The actual water use is for make-up to the cooling towers. Three 100,000 Kilowatt units are planned. Unit No. 1 was placed in commercial operation on June 30, 1965. Unit No. 2 is under No. 1 was placed in commercial operation on June 30, 1965. Unit No. 2 is under construction at the present time and is scheduled for commercial operation in April 1, 1968.
